## Aero Pane

- AERO Digital Poster is truly plug-and-play, all-in one device.
- No external media player, external speakers or unattractive cables required.
- Furthermore, anti – reflective glass – coated screens leads the Aero Digital Poster series of displays an allure that integrates seamlessly.

# Aero Ultra Slim Digital Kiosk

## IPS Panel

Superior image quality and colour depth at 178 Degree Ultra wide viewing angle in both, landscape and Portrait orientations.

## Giant Tablet Styling

Designed as one giant tablet, the ultra-slim and elegant look is achieved with a rugged and striking aluminium casing and a stunning IPX 1 rated edge-to-edge glass.

## LED Backlight

Improves brightness and contrast as well as improving their life-span and reducing their power consumption. Unlike other forms of light, this technology is mercury free, making it even more eco-friendly. The panel and back light have a life-span in excess of 60,000 hours.

## Commercial Grade

Designed for use in commercial applications, this screen can run 24/7. Tampering is avoided, as there are no external buttons nor controls.

## Network CMS Upgrade

We, at AERO. also offer cloud based Network CMS, if required, and you can run the third party Digital Signage software via our Android PC board too.

## Plug and Play

Plug and Play is the easiest and most simple way to upload content to the screen. Copy paste files conveniently from USB stick to Aero Ultra Slim Digital Kiosk and play seamlessly.

**Display Size Available 32"/43"/55"/65"**

## Conventional Kiosk

## Aero Digital Kiosk

## Conventional Kiosk

- Traditional old design
- Very Heavy weight - 80kgs
- Expensive transportation required
- Non- Manurable
- Girthy design – 110 mm width
- Broad Bezel
- Conventional TV screens are Installed

## Aero Digital Kiosk

- Best in class design
- Light Weight – 30 Kgs
- Low cost transportation
- Sleek in design – 18 mm width
- Thin bezel design
- Chrome coated frames
- Easy maintenance from back side
- Professional grade screens are used for longer life
- 4K panels for detail LED display

## Aero Ultra Slim Interactive Kiosk

**Display Size Available 43"/55"**

### Network CMS Upgrade

We, at AERO, also offer cloud based Network CMS, if required, and you can run the third party Digital Signage software via our Android PC board too.

### Plug and Play

Plug and Play is the easiest and most simple way to upload content to the screen. Copy paste files conveniently from USB stick to Aero Ultra Slim Digital Kiosk and play seamlessly.

### Pro - Cap Touch

State of the art projected capacitive interactive technology offers the most responsive and sensitive touch experience available. Designed for Commercial applications, Pro-Cap touch technology works by fixing a sensor grid between a layer of cover glass and the LCD panel, when a Finger touches the glass the grid detects the coordinates of the touch point. Unlike other touch technologies Pro-Cap is not affected by dust or debris on the screen surface for up to 10 touch points and offers superior optical quality.

### Giant Tablet

These AERO displays could be considered to be the largest commercial tablet on the market; but they are so much more. With a striking aluminium bezel and a sleek and attractive design, these displays always manage to catch the eye. Build with a strong tempered edge to edge glass front and a wide viewing angle, these commercial grade tablets are hard to miss and certainly stand out from the crowd.

### LED Backlight

Improves brightness and contrast as well as improving their life-span and reducing their power consumption. Unlike other forms of light, this technology is mercury free, making it even more eco-friendly. The panel and backlight have a life-span in excess of 60,000 hours. Designed for use in commercial applications, this screen can run 24/7. Tampering is avoided, as there are no external buttons nor controls.

### Commercial Grade

Designed as one giant tablet, the ultra-slim and elegant look is achieved with a rugged and striking aluminium casing.

# Aero Dual Side Hanging Kiosk

## Plug and Play

Plug and Play is the easiest and most simple way to upload content to the screen.

## Network CMS Upgrade

We also offer cloud basis network CMS, if required, and you can run the third party Digital Signage software via the Android PC board too.

## Commercial Grade

Designed for use in commercial application this screen can run 24x7. There are no external buttons or controls to avoid tampering.

## High Brightness Double Sided Screen

Display made with Double sided screens, more importantly, the one side of the screen could reach to 1000 units, more attractive for potential customers. More impressive thing is for such a high brightness and double sided screen, the thickness reach to 45mm only!

## IPS Panel

Superior image quality and colour depth at 178° ultra wide viewing angle in both landscape and portrait orientation.

## Adjustable Wire Rope

Default 3m length wire rope with lock catch easy to adjust the length. Can meet different installation places.

## LED Backlight

This Panel and backlight have a lifespan in excess of 60,000 hours.. Unlike other form of light this technology is mercury free; making it even more eco-friendly.

**Display Size Available  
37"/43"**

# Aero Dual Side Floor Standing Kiosk

## Plug and Play

Plug and Play is the easiest and most simple way to upload content to the screen. Copy paste files conveniently from USB stick to Aero Ultra Slim Digital Kiosk and play seamlessly.

## Dual Display LED Backlight

**LED IPS Panel backlight Eco Power Timer Android Media Technology Player**

### Plug and Play 24/7 Usage

Improves brightness and contrast as well as improving their life-span and reducing their power-consumption. Unlike other forms of light, this technology is mercury free, making it even more eco-friendly. The panel and back light have a life-span in excess of 60,000 hours. Designed for use in commercial applications, this screen can run 24/7. Tampering is avoided, as there are no external buttons nor controls.

## Commercial Grade IPS Panel

Superior image quality and color depth at 1780 ultra wide viewing angle in both, landscape and portrait orientations.

## Elegant Design High Brightness Double Sided Screen

Ultra-slim Displays are made with double sided screens, where one of the screen has very high brightness (as high as 1000 nits) and the other has standard brightness of 350 nits. The higher brightness faces the area with high ambient light and, as such, helps to vividly showcase images and videos to potential customers in the high ambient light areas.

## Network CMS Upgrade

We, at AERO, also offer cloud based Network CMS, if required, and you can run the third party Digital Signage software via our Android PC board too. Super Slim Design only 45mm depth but very stable.

**Display Size Available 55"**

## Aero K- Type Kiosk

### Pro - Cap Touch

State of the art projected capacitive interactive technology offers the most responsive and sensitive touch experience available. Designed for commercial applications, Pro-Cap touch technology works by fixing a sensor grid between a layer of cover glass and the LCD panel, when a finger touches the glass the grid detects the coordinates of the touch point. Unlike other touch technologies Pro-Cap is not affected by dust or debris on the screen surface for up to 10 touch points and offers superior optical quality.

### Giant Tablet

These AERO displays could be considered to be the largest commercial tablet on the market; but they are so much more. With a striking aluminium bezel and a sleek and attractive design, these displays always manage to catch the eye. Build with a strong tempered edge to edge glass front and a wide viewing angle, these commercial grade tablets are hard to miss and certainly stand out from the crowd.

### LED Backlight

Designed for use in commercial applications, this screen can run 24/7. Tampering is avoided, as there are no external buttons nor controls.

### Commercial Grade IPS Panel

Superior image quality and color depth at 178° ultra wide viewing angle in both, landscape and portrait orientations. Designed as one giant tablet, the ultra-slim and elegant look is achieved with a rugged and striking aluminium casing and a stunning IPX 1 rated edge to-edge glass.

### Giant Tablet Styling

The Screen can have both Windows and Android Operating System.

**Display Size Available**  
**32"/43"/55"**

## Aero Ultra Slim A – Frame Standee

### Plug and Play LED Backlight

**LED IPS Panel backlight Eco Power Timer Technology Android Media**

### Player Plug and Play 24/7 Usage

Improves brightness and contrast as well as improving their life-span and reducing their power-consumption. Unlike other forms of light, this technology is mercury free, making it even more **eco-friendly**. The panel and back light have a life-span in excess of 60,000 hours.

The bracket can be folded to make the full side of kiosk small, and easy to allow you to carry it around.

### Portable Design IPS Panel

Superior image quality and colour depth at 1780 ultra wide viewing angle in both, landscape and portrait orientations.

### Commercial Grade

Designed for use in commercial applications, this screen can run 24/7. Tampering is avoided, as there are no external buttons nor controls.

### Network CMS Upgrade

We, AERO, also offer cloud based Network CMS, if required, and you can run the third party Digital Signage software via our Android PC board too. Designed as one giant tablet, the ultra-slim and elegant look is achieved with a rugged and striking aluminium casing and a stunning IPX 1 rated edge-to-edge glass.

### Giant Tablet Styling

Plug and Play is the easiest and most simple way to upload content to the screen. Copy paste files conveniently from USB stick to aero ultra slim digital kiosk and play seamlessly
