AERO

Visual Brilliance

Introduction

AERO stands as a pioneering force and digital powerhouse in the display industry, spearheading innovation with its revolutionary approach to addressing the ever-evolving needs and preferences of

consumers. Through relentless commitment to technological advancement and customer-centric strategies, AERO sets new standards, driving transformative change in the realm of display solutions.

AERO is a leading force in the display industry, known for innovation and customer-centric strategies.

We serve diverse clients across sectors like HNI homes, retail, hospitality and offices, offering cutting-edge display solutions.

Our range includes cutting-edge commercial display

solutions, 4K and Ultra HD LED walls, LED/LCD panels, digital posters, waterproof Mirror TVs, interactive flat panel displays, LED cubes, holographic displays, square TVs, customizable options and much more.

We aim to elevate environments with exceptional visual experiences, driven by advanced technology and meticulous manufacturing processes.

Expanding Reach

AERO prides itself on delivering cutting-edge and customizable commercial display solutions that stay ahead of emerging trends and technology. With a blend of innovation and a keen focus on performance, we prioritize not only the technological superiority of our products

but also their aesthetic appeal, ensuring they seamlessly integrate into our customers' homes or offices. Our team comprises the industry's brightest and most dedicated engineers and strategists, driving our commitment to excellence in every aspect of our business.

Aero Pane

- AERO Digital Poster is truly plug-and-play, in one device.
- No external media player, external speakers or unattractive cables required.
- Furthermore, anti – reflective glass – coated screens leads the Aero Digital Poster series of displays an allure that integrates seamlessly.

Aero Ultra Slim Digital Kiosk

IPS Panel

Superior image quality and colour depth at 178 Degree Ultra wide viewing angle in both, landscape and Portrait orientations.

Giant Tablet Styling

Designed as one giant tablet, the ultra-slim and elegant look is achieved with a rugged and striking aluminium casing and a stunning IPX 1 rated edge-to-edge glass.

LED Backlight

Improves brightness and contrast as well as improving their life-span and reducing their power consumption. Unlike other forms of light, this technology is mercury free, making it even more eco-friendly. The panel and back light have a life-span in excess of 60,000 hours.

Commercial Grade

Designed for use in commercial applications, this screen can run 24/7. Tampering is avoided, as there are no external buttons nor controls.

Network CMS Upgrade

We, at AERO. also offer cloud based Network CMS, if required, and you can run the third party Digital Signage software via our Android PC board too.

Plug and Play

Plug and Play is the easiest and most simple way to upload content to the screen. Copy paste files conveniently from USB stick to Aero Ultra Slim Digital Kiosk and play seamlessly.

Aero Conventional Kiosk

Aero Digital Kiosk

Aero Conventional Kiosk

- Traditional old design
- Very Heavy weight - 80kgs
- Expensive transportation required
- Non- Manurable
- Girthy design – 110 mm width
- Broad Bezel
- Conventional TV screens are Installed

Aero Digital Kiosk

- Best in class design
- Light Weight – 30 Kgs
- Low cost transportation
- Sleek in design –18 mm width
- Thin bezel design
- Chrome coated frames
- Easy maintenance from back side
- Professional grade screens are used for longer life
- 4K panels for detail LED display

Aero Ultra Slim Interactive Kiosk

- **Network CMS Upgrade**
We, at AERO, also offer cloud based Network CMS, if required, and you can run the third party Digital Signage software via our Android PC board too.
- **Plug and Play**
Plug and Play is the easiest and most simple way to upload content to the screen. Copy paste files conveniently from USB stick to Aero Ultra Slim Digital Kiosk and play seamlessly.
- **Pro - Cap Touch**
State of the art projected capacitive interactive technology offers the most responsive and sensitive touch experience available. Designed for Commercial applications, Pro-Cap touch technology works by fixing a sensor grid between a layer of cover glass and the LCD panel, when a Finger touches the glass the grid detects the coordinates of the touch point. Unlike other touch technologies Pro-Cap is not affected by dust or debris on the screen surface for up to 10 touch points and offers superior optical quality.
- **Giant Tablet**
These AERO displays could be considered to be the largest commercial tablet on the market; but they are so much more. With a striking aluminium bezel and a sleek and attractive design, these displays always manage to catch the eye. Built with a strong tempered edge to edge glass front and a wide viewing angle, these commercial grade tablets are hard to miss and certainly stand out from the crowd.
- **LED Backlight**
Improves brightness and contrast as well as improving their life-span and reducing their power consumption. Unlike other forms of light, this technology is mercury free, making it even more eco-friendly. The panel and backlight have a life-span in excess of 60,000 hours.
